Technical & Financial Quotation

For designing/developing online website

Egypt Construction

Introduction

I am proud to be a part of Tech Savvy©, a limited liability technology company established in the Ras Al Khaimah Free Trade Zone in the United Arab Emirates.

We specialize in providing various information technology services, including but not limited to, designing/developing websites, developing, and creating systems and databases, website hosting services, establishing visual identities for various institutions, developing computer software and mobile applications for the two main operating systems Android and iOS, in addition to providing diverse technical support services in most fields of information technology.

We take pride in being pioneers in the field and in the diversity of services we offer to our valued customers, in addition to our varied and distinguished portfolio of previous work, which has earned the trust and acceptance of our clients.

As we present this artistic and financial proposal to (**Egypt Construction**) company, we promise to provide outstanding technical and artistic services while maintaining high quality in the services we offer.
